A high-angle photograph of a snow-covered mountain slope. The snow is bright white and shows some texture and shadows. A long, dark shadow is cast across the snow from the upper right towards the lower left. In the background, there are patches of brown, dry grass or low vegetation interspersed with snow. The overall scene is bright and clear.

An aerial photograph showing a massive glacier flowing over a rugged, rocky terrain. The glacier's surface is marked by numerous longitudinal stripes and transverse crevasses, indicating its slow movement and the underlying geological structure. In the upper right, a patch of brown, rocky ground is partially covered with snow. The overall scene is a stark, high-altitude landscape.
